- 12 Börsen-Zeitung
- 13 Börsen-Zeitung SPEZIAL

The Börsen-Zeitung has been the only “pure” financial newspaper in Germany since 1952.

Image and commercial advertisements, e.g. for financial services or investment products, reach the key decision-makers in industry, banks and the financial sector with the Börsen-Zeitung - both in the daily edition and in the editorial supplements and specials.

BRIEF CHARACTERISTICS

The Börsen-Zeitung is published by the WM Group, the publishing association WERTPAPIER-MITTEILUNGEN Keppler, Lehmann GmbH & Co. KG. Since 1952 it has been the only "pure" financial newspaper in Germany, making it a daily read and an indispensable source of information for finance and capital market professionals.

2/3 of our readers belong to the 1st or 2nd management level in their companies. With Börsen-Zeitung, adverts make it directly onto the desks of important decision-makers!

Commercial and financial advertisements

Advertising and financial adverts attract particular attention from Börsen-Zeitung readers. It goes without saying that the Börsen-Zeitung is a supra-regional mandatory publication for all German stock exchanges.

Editorial supplements, specials and focus topics of the Börsen-Zeitung

The editorial supplements, specials and focus topics provide up-to-date information on market and industry topics. The current overview of topics for 2026 can be found on page 10.

Digital advertising

In addition to print advertising options, the Börsen-Zeitung also offers a wide range of digital advertising options. Our offer includes a modern website, an e-paper, various newsletters, podcasts and an app. Please request our media data for digital advertising or an individual offer from the advertising department.

Finanzinvestoren entdecken Datacenter-Deals für sich

Stiegendes Transaktionsvolumen – Komplexe rechtliche Rahmenbedingungen – Komplexität als zentraler Aspekt

Von Michael Hoffmann

Die Investoren sind auf der Suche nach neuen Möglichkeiten, um ihr Kapital zu investieren. In der Vergangenheit waren dies vor allem Immobilien, aber in den letzten Jahren haben sich die Interessen der Investoren erweitert. Ein Bereich, der in den letzten Jahren stark an Bedeutung gewonnen hat, sind Datacenter. Diese sind nicht nur für Unternehmen, sondern auch für private Investoren ein interessantes Feld. Die Investoren sehen in Datacenter eine Möglichkeit, ihr Kapital zu investieren und gleichzeitig eine Rendite zu erzielen. Die Investoren sind jedoch mit einer Reihe von Herausforderungen konfrontiert. Eine der größten Herausforderungen ist die Komplexität der rechtlichen Rahmenbedingungen. Die Investoren müssen sich mit einer Reihe von Gesetzen und Vorschriften auseinandersetzen, die die Investition in Datacenter regeln. Eine weitere Herausforderung ist die hohe Kosten der Investition. Die Investoren müssen eine erhebliche Summe an Geld investieren, um ein Datacenter zu bauen und zu betreiben. Die Investoren sind jedoch bereit, diese Herausforderungen zu meistern, da sie die Vorteile der Investition in Datacenter sehen. Die Investoren erwarten eine hohe Rendite auf ihre Investition und sehen in Datacenter eine Möglichkeit, ihr Kapital zu investieren und gleichzeitig eine Rendite zu erzielen.

OUR TOPICS 2026

Editorial supplements, specials and focus topics in the Börsen-Zeitung

Editorial supplements and specials are a traditional feature of the Börsen-Zeitung. These supplements provide up-to-date assessments of market and industry topics. The authors of the supplements are usually leading figures and representatives from banks, the international financial world and industry, as well as their organisations and associations.

In addition, selected issues of the Börsen-Zeitung feature special topics. The price list for advertisements (page 5) applies to commercial advertisements in editorial supplements and focus topics, while the price list for the Börsen-Zeitung SPEZIAL in magazine format (page 8) applies to commercial advertisements in specias.

INVESTMENT FUNDS

The Börsen-Zeitung publishes prices for investment funds with performance data on every publication day and thus informs investors and intermediaries about the current issue and redemption prices. In addition, all prices are published on www.boersen-zeitung.de and included in WM Datenservice's electronic fund reporting, which is

transmitted to the financial industry several times a day. Furthermore, the prices are published 12 times a year as a comprehensive Ultimo table in the "WPI Wertpapier Informationssystem" of the Börsen-Zeitung.

Guidelines for the transmission or delivery of digital advertisements

When sending your advert by email, please note the following important points so that we can process the order to your satisfaction: Select the folder or file name in such a way that it is recognisable for which customer the advertisement is for; please do not use any special characters or umlauts.

We expect PDF-X-1a documents prepared for newspaper printing with integrated fonts. The transmitted data must contain all the components required for exposure. Please use images (minimum resolution 280 dpi for colour and greyscale images, 1270 dpi for line drawings [1-bit images] in the size to be printed) and logos (at least 800 dpi or vector EPS) in CMYK and reproduction scale 1:1. Complete PS fonts, no modified fonts, no true type fonts.

Other formats, such as Word files, cannot be processed and can only be used as typesetting templates. The format of the document must correspond to the display format. Format corners and register marks must be sufficiently spaced (12 pt/4mm). When compressing files, select only self-extracting compression types (Stuffit/Zip). No corrections are made to the data supplied. Please send new data if corrections are required or if the data supplied is incorrect. Multiple edits will be invoiced. Minor deviations in register and tone do not entitle the customer to compensation or a reduction in price.
